American Academy of Pediatrics Statement on HPV Vaccine
 "The American Academy of Pediatrics would like to correct false statements made in the Republican presidential campaign that HPV vaccine is dangerous and can cause mental retardation. There is absolutely no scientific validity to this statement. Since the vaccine has been introduced, more than 35 million doses have been administered, and it has an excellent safety record.

Proponents Educate Lawmakers on Medical Home Concept
 Around since at least the 1960s, medical homes for children certainly aren't a new concept, Dr. Lawrence Reynolds told a group of lawmakers at an informational breakfast here Thursday.
 "It's as developed as any idea with merit can be developed," said Reynolds, a Flint pediatrician and president of the Michigan chapter of the American Academy of Pediatrics.
