Please briefly state why you would like to be considered for this position, what qualifications would be an asset to MIAAP, and what are the 2 top AAP policy priorities you would shepherd on the board if elected:

I now have three years of experience in the post. I have been able to transform the accounting and business practices of the chapter with the help of our Executive Director. I would like to continue to develop programs to help the chapter remain financially viable in these trying economic circumstances and changing patterns of membership linkage to the chapter.

I would like to develop alternative sources of revenues for the chapter and see through the changes in the sports physical pre-participation exams.

What initiatives would you support to develop the capacity of the MIAAP to meet the needs of our members and support the mission of the organization?

New and improved communications vehicles.

New programs that offer value to members while boosting the financial stability of the chapter.

Gain relevance and meaning to our members, children, families, childhood organizations and state government.
