Current/Prior Membership on MIAAP or AAP Councils/Committees/Section:

Committee on Children with Disabilities

Position on MIAAP you wish to be considered for:

Alternate at Large

Please briefly state why you would like to be considered for this position, what qualifications would be an asset to MIAAP, and what are the 2 top AAP policy priorities you would shepherd on the board if elected:

I have been caring for children with special health care needs for the last 20 years in the capacity both as a private practitioner providing a medical home and as a specialist providing comprehensive care to this patients population. I have been part of the state's Medical Home Learning Collaborative for the last 6 years. I would like to continue to work towards all children having access to a medical home and access to appropriate care.

What initiatives would you support to develop the capacity of the MIAAP to meet the needs of our members and support the mission of the organization?

We need to continue to support the development of a pediatric medical home. We need to do this by working with Michigan Medicaid and Children's Special HealthCare Needs to develop ways to support pediatrician's in their practices to implement this model of care.

We also need to develop ways to provide education for our membership so that they can meet the requirements of Maintenance of Certification.
